Environmental Policy

Springfarm Architectural Mouldings Limited (SAM) recognises its responsibility to the environment and the local community and is committed:

To implement and maintain an environmental management system that at least meets
→ the requirements of ISO 14001:2004.

To identify, measure, monitor and review existing and potential environmental impacts to
→ assist us in continually improving our:

- use of natural resources
- minimisation of waste
- control of emissions
- recycling of materials
- use of our combined heat and power plant
- emergency preparedness

→ To liaise with our suppliers and customers to promote the best environmental practice.

To only source our MDF raw material from Forest Stewardship Council (FSC) certified
→ suppliers.

→ To comply with applicable legal requirements and with recognised good practice.

To communicate this policy to all employees and make available to interested parties on
→ request.

This Environmental Policy will be reviewed regularly and updated as required.

Sam McCrea
Managing Director
